Welcome

Dear Patient,

Welcome to Primary Care Women's Health. We are honored that you have chosen us as your health care provider. Our goal is to provide the highest quality care for all of our patients in a timely and respectful manner. Please take the time to fill out the attached forms completely and return them to our office. Once we receive the paperwork back at our office, Dr. Juliano will review it and then our office will reach out to you to make an appointment.

Providing the highest quality of professional care to our patients is very important to us. Therefore, the following guidelines have been established:

- ❖ If a patient "No Shows" their first appointment, the patient will not be able to reschedule the appointment with our office.
- ❖ It is our policy that after two (2) "No Show" appointments in a 6 month time frame, in our office or referrals, we reserve the right to discharge you from our practice.
- ❖ A pattern of rescheduling of appointments could be grounds for dismissal.
- ❖ Primary Care Women's Health does not offer chronic pain management, chronic benzodiazepine, and will not dispense chronic pain medication.
- ❖ Please check if you need medication refills to discuss at your appointments.
- ❖ Prescription refill requests made outside of any appointment may take up to 48-hours for us to respond to. Multiple requests will slow down the process.
- ❖ It may take up to two (2) weeks to receive lab or imaging results. However, abnormal results will be called to the patient within 24 business hours.
- ❖ Please bring your insurance card to every appointment.
- ❖ It is the patients' responsibility to know what services their insurance cover.
-Including: lab work, imaging studies, and consultation services.

Thank you for choosing OhioHealth Women's Health Primary Care Physicians to help with your health care needs.

Sincerely,

The Staff and Providers of OhioHealth Women's Health Primary Care Physicians
